Congratulations! You are now one of a select group of Right To Play Junior Leaders around the world who are making a difference. Right To Play is a global organization committed to protecting, educating and empowering children and youth affected by conflict, disease and poverty. Our unique, play-based approach to learning and development uses play to engage 1.9 million children each week in 15 countries around the world, including more than 85 Indigenous communities and urban organizations across Canada.

As part of our global network of Junior Leaders, you are showing the enthusiasm and ability to create real, positive change at home and around the world. Your responsibility is now to help plan and carry out educational games and engaging activities in support of Right To Play programs with your school's Challenge. Through the Challenge, you and your classmates will have the opportunity to connect and meaningfully engage with the power of play as global citizens.
